

## Disclaimer

While Polytra NV makes great efforts to include accurate and up-to-date information, we make no representations or warranties, express or implied, as to the accuracy or completeness of the information provided on this site and disclaim any liability for the use of this site or any site linked to it. Polytra NV may change this site at any time without notice but does not assume any responsibility to update it. Polytra NV makes no warranties, express or implied and assumes no liability in connection with any use of this publication and all users agree that all access and use of this site and of any site linked to from this site and the information contained herein and therein are at their own risk.

Neither Polytra NV nor any of its subsidiaries, nor any other party involved in creating this site is liable for any direct, incidental, consequential, indirect or punitive damages arising out of your access to or use of this site, including but not limited to viruses that may infect your computer equipment. This site may contain third party information and links to third parties. Such third party information does not necessarily represent the opinion of Polytra NV and links to third party sites are provided for convenience only. Polytra NV does not express any opinion on the content of such third party information or sites and expressly disclaims any liability for all third party information and the use of it.

This website contains forward-looking statements based on current assumptions and forecasts made by Polytra NV management. Such forward-looking statements are subject to known and unknown risks, uncertainties and other factors which may result in a substantial divergence between the actual results, financial situation, development or performance of the company and those explicitly or implicitly presumed in these statements. Against the background of these uncertainties readers should not rely on forward-looking statements. The company assumes no responsibility to update forward-looking statements or to adapt them to future events or developments.
